

TAFT IS MAKING FUR FLY IN WEST

Ten Speeches Yesterday in Which He Exposes Bryan.

[Associated Press Telegram.]

Sioux City, Ia., Sept. 30.—Candidate William H. Taft delivered 10 speeches during the day, the keynote of each being tariff revision, mostly downward, but in some instances upward—notably on pottery.

Judge Taft's campaign through South Dakota terminated here, where he addressed a tremendous audience from the four states of Iowa, Nebraska, South Dakota and Minnesota. The meeting was held in the immense trainshed of the Union passenger station and was rivaled only in the day's trip from Aberdeen by the two meetings held at Mitchell.

Besides Mitchell and Sioux City, the largest crowds of the day were at Aberdeen and Yankton, the latter the home of Senator Gamble. Other stops of the special, where cheering audiences were waiting, were at Mellette, Redfield, Wolsley, Tripp, Parkston, Lesterfield, Scotland and Vermillion.

Judge Taft's voice permitted him to be heard fairly well, his speaking assistant during the day was Representative J. Adam Bode of Minnesota, who jokingly referred to the candidate as the "upholstered statesman." He said the great distinction between Taft and Bryan was that you could see Taft much farther than you could hear him, and you could hear Bryan farther than you could see him, or ought to follow him.

The manner of speech Mr. Taft delivered during the day may be learned by the following extracts of remarks made at different places along the route. His speeches at Mitchell and Sioux City were along the same lines.

"The difficulty about Mr. Bryan, my distinguished opponent, is that he is engaged in trying to avoid his record, and the Republican party and its candidate are trying to stand by its record. Mr. Bryan, I believe, invited my consideration to a number of issues but I don't think he dwelt with that intense emphasis of which he is capable on the condition the farmers were in when he was, so to speak, at the helm. I don't think he called your attention to the effect on the market price of farmers' products under the Gorman-Wilson tariff bill, of which he was one of the chief advocates. He did not refer to the fact with any degree of significance that wheat under the influence of that great tariff went down below 50 cents. He did not call your attention to the fact that corn was at 21 cents; that oats was at 10 cents."

Sues Railroad for Fire Loss

Alleging that sparks from an engine set fire to their farm, damaging it to the extent of \$214, Horace G. Weatherwax and Florence L. Weatherwax have commenced suit in common pleas court against the C. A. & C. Railway company for this amount. Duncan & McDermott represent the plaintiffs. The damage as itemized as follows: 22 rods of rail fence, \$15; 15 tons of straw, \$45; manure \$40; cattle shed, \$5; 14 acres of meadow grass, \$60; 18 acres of pasture, \$18; 5 acres of timber, \$25. The fire occurred on March 27, 1908.

DOCTOR'S CERTIFICATE HELPS BOOTLEGGER

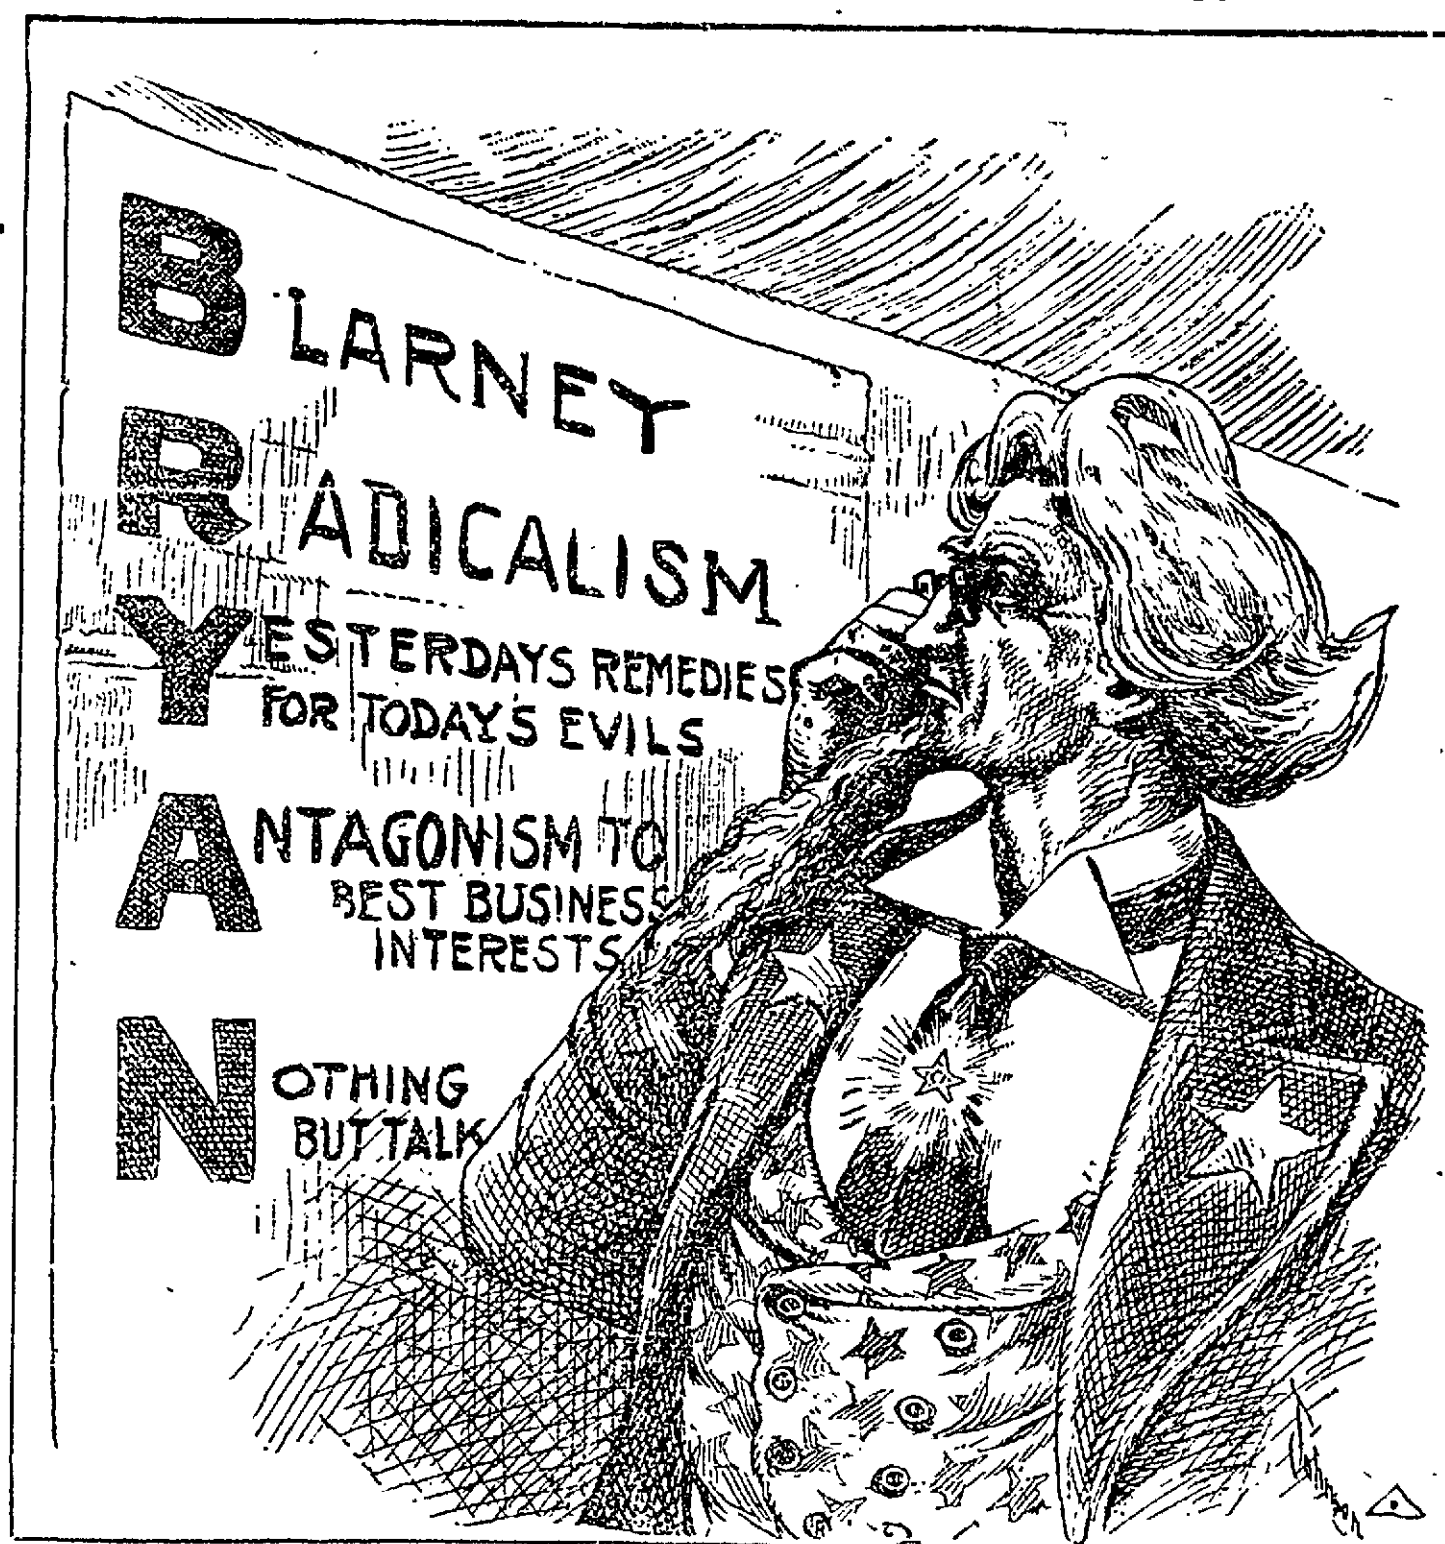

Tom Johnson, charged with selling liquor without a license, whose trial was set for Tuesday afternoon, changed his plea to guilty and was fined \$100 and costs of prosecution by Mayor Hamilton, the prisoner to stand committed to the Columbus workhouse until the fine and costs be paid at the rate of 60 cents per day.

Owing to Johnson's condition, however, he was released from custody to await physical developments, a certificate having been filed by Dr. Nelson, stating that he finds Johnson to be suffering with tuberculosis and that the man's life would be endangered if he should be kept in prison. Johnson is therefore out on probation and will be subject to the orders of the court. He cannot leave town without permission from Mayor Hamilton.

Jackson Gets a Kidnapper

On a charge of kidnapping his own daughter, Nathan Shaw was arrested at Cambridge by Humane Officer Jackson, of Tuscarawas county, and taken to New Philadelphia for trial.

UNCLE SAM SOLVES THE ACROSTIC.

Wedded Without Usual License

Seldom has there been a marriage performed in Coshocton county without first going through the formality of securing a marriage license from the probate court. Yet George McDavit and Miss Delilah Kownapple, whose marriage was performed by Rev. Fr. Von Lintel at Spring Mountain last Thursday, were united in the holy bonds of matrimony without any license being issued to them by Judge Donley.

While this custom was common a number of years ago, it is very unusual now and Mr. and Mrs. McDavit enjoy the distinction of being the only couple to be married by this method in recent years.

The law provides that the triple publication of the banns in a church, the ceremony may be performed. A certificate of the marriage was received at the probate office from Rev. Fr. Von Lintel Wednesday morning.

LICENSED TO MARRY
Robert M. Laughlin, farmer Jefferson township; Almeda Barrett, Bedford township. Rev. Cornell to officiate.

JUDGE KEAN ARRIVES HERE

Hon. William F. Kean of Wooster, Republican candidate for common pleas judge, arrived in Coshocton Wednesday and is busy getting acquainted. Mr. Kean is one of the able lawyers of Wayne county and is excellent timber for the important post of judge in this district. He is making many friends.

HASKELL SAYS HE WILL SUE HEARST

[Associated Press Telegram]
Guthrie, Okla., Sept. 30.—Governor C. N. Haskell is preparing to bring suit in the next few days against William R. Hearst, because of the latter's charges concerning Governor Haskell's alleged connection with an attempt to bribe Frank S. Monnet for the Standard Oil company. The suit will be brought in Missouri, probably at Kansas City. H. C. Smull of Mexico, Mo., is here as attorney for Governor Haskell, preparing the petition.

Special Officers Chosen to Serve at Fair Grounds

The county fair, with all its wild delight and beauty will be here again next week. It is enough to make the heart exult for in Coshocton county fair week is looked forward to with the same tingling of the blood as that which comes with the approach of Christmas.

Visions of the ga. shows at the fair grounds, the side show freaks and the race horses speeding round the track and echoes of the music of the "spiders," the dizzy noise of the merry-go-round and the vivid squawking of the toy balloon singer in the memory through all the year.

Beating the Bunches
This year's fair promises to be the greatest of them all. It is estimated that more than 100,000 people will be here. The fair will be held on the grounds of the Coshocton fair, between the C. A. & C. Railway and the C. A. & C. Railway. The fair will be held on the grounds of the Coshocton fair, between the C. A. & C. Railway and the C. A. & C. Railway.

A merry-go-round, a fair wheel and an ocean wave will all be here this year. Mr. Gooding of Middle

Fall Hats All Awry Over Closing Hours

The ladies who conduct the millinery stores in Coshocton are having a little war of their own just now over the question of keeping open at nights. One of them started the idea of keeping open evenings and as it seemed to be profitable some of the others fell into line. But the Business Men's Assn. has a rule

Club of German America's Formed

The German-American Alliance, of Coshocton, held a meeting at the city hall Tuesday night and elected the following officers:
H. Liewer, president
Oscar Haverbeck, vice president
Jacob Womer, secretary
Henry Hartman, treasurer
Fred Jordis, financial secretary
Wm. Klein, executive committee
One hundred and forty-seven members are enrolled to the list. The object of the organization is to uphold true morality and righteousness.

JUDGES NAMED FOR ROSE LAW ELECTION

DRYS MAKE CLEAN SWEEP IN A DOZEN

Yesterday's Vote Snowed Under the Wet Side.

[Associated Press Telegram]
Columbus, O., Sept. 30.—Twelve Ohio counties voted under the Rose law, and all went "dry" by majorities ranging from a few hundred to more than 2,900. The number of saloons affected is 289. Most of the counties which voted are largely agricultural, but Erie and Lawrence counties have a large urban population. In Portsmouth and fronton respectively, Alto, other 16 of the 12 counties in the state have held local option elections and all have gone "dry." The total number of saloons voted out is 289.

The counties holding elections, with the majorities and number of saloons affected, follow:

Adams county, 2,000 majority; five saloons affected.
Athens county, 1,123 majority; 53 saloons affected.
Gallia county, 1,682 majority; 17 saloons and two wholesale liquor houses affected.
Guernsey county, 2,145 majority; 30 saloons affected.
Hocking county, 700 majority; 28 saloons affected.
Jackson county, 1,646 majority; 36 saloons affected.
Lawrence county, 1,600 majority; 22 saloons affected.
Noble county, 1,298 majority; five saloons affected.
Pike county, 803 majority; eight saloons affected.
Scioto county, 291 majority; 61 saloons affected. Portsmouth voted wet by 155.
Vinton county, 800 majority; four saloons affected.
Van Wert county, 894 majority; 21 saloons affected.

J. W. Moore Sells His Horse Rex

Rex, the handsome black saddle horse of Jas. W. Moore's has been sold by Mr. Moore to a Mr. Mackey of Millersburg. The animal is one of the handsomest in this section of the state and always attracted attention when ridden about town. The price is in three figures.

JARRETT LIES IN U. S. JAIL

Thurman Jarrett was taken to Columbus Wednesday morning by Deputy U. S. Marshal Schilling and will probably have to lie in the Franklin county jail until the Federal grand jury sits in December. Jarrett stands in the shadow of the penitentiary.

Gets a Sad Message

Mrs. Chas. S. Robertson received a telegram from Troy, N. Y., Wednesday morning bearing the sad intelligence that her brother's wife, Mrs. Henry Holmes, died Tuesday night. Mrs. Robertson left Wednesday afternoon to attend the funeral and will probably remain there several weeks. A baby girl was born to Mr. and Mrs. Holmes on Monday and on Tuesday night the mother's life went out. They lived only a short distance from the family home in Troy and a reunion had been planned to be held in December. Mr. Holmes and his father, whose name is also Henry Holmes, are manufacturers of collars and cuffs in Troy.

Maneuvers Come to an End.
For Benjamin Harrison, Ind., Sept. 30.—The annual fall army maneuvers and camp instruction have ended. The troops of the Wisconsin National Guard and the Twenty-eighth United States infantry began entertaining, while the Kentucky and Michigan troops were maneuvering with the other regulars. All the troops except the Tenth United States infantry, stationed here, had departed before noon today.

CLAIMS TWO VICTORIES

Baker Says Temperance People Are Now After Cannon.

Chicago, Sept. 30.—"Everywhere, from ocean to ocean, it is being declared that Speaker Joseph C. Cannon is the greatest obstacle to moral advancement in this country," was the declaration of Rev. P. A. Baker of Columbus, O., general superintendent of the American Anti-Saloon league, at the opening of the sixteenth session of the Rocky River conference of the Methodist Episcopal church, in the Woodlawn Methodist church, "For eight years the wheels of reform legislation were locked on the temperance question. We prayed and appealed for some measure that would stop the interstate commerce in liquor. This one man, your speaker from Illinois, has kept the judiciary committee bowed down like whipped spaniels. Last winter we got off our knees and concluded to help answer our own prayers. We have already defeated two of the four members of that committee for reelection and are after the other two."

Dr. Baker was cheered when he announced that he would start for Speaker Cannon's district to aid in the effort to defeat the reelection of Speaker Cannon.

Trust Companies Register Protest.

Denver, Colo., Sept. 30.—The trust company section of the American Bankers' association went on record in opposition to the bank deposit guarantee proposition, making the third subsidiary association of the American bankers to declare itself on this subject. A motion to vote on the proposition for postal savings banks was defeated. All the speeches made were against the postal savings banks plan, but it was the sense of the meeting that as the savings bank section had already voted against it and as it was scheduled to come up before the general convention, there was no need of the trust section voting on the subject.

Alpha Pi dope—something new. At the Sparta.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential. Dr. Shoop's Night Cure is the Local. Dr. Shoop's Restorative, the Constitutional. The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments. The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative excites nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

S. S. S. A CURE FOR RHEUMATISM

Rheumatism is caused by an excess of uric acid in the blood, which is carried through the circulation to all portions of the system. Every muscle, nerve, bone and joint are thus affected, producing pain, causing aches, inflammation, stiffness and other well known symptoms of the disease. Permanent relief from the pain and discomfort of Rheumatism cannot be expected from the use of salicylates, castor oil or other external treatment, which do not reach the blood, where the cause is seated. Such measures give a temporary relief, but in order to cure Rheumatism the uric acid and inflammatory poison must be expelled from the blood. S. S. S. cures Rheumatism because it is a perfect blood purifier. It goes down into the circulation, neutralizes the uric acid and drives it from the blood. S. S. S. expels the irritating, inflammatory matter which is causing the pain, swelling and other discomfort, enriches the weak, sour blood, and permanently cures Rheumatism. In all forms of Rheumatism S. S. S. will be found a safe, vegetable remedy, possessing the properties needed to cure, and at the same time a medicine that builds up the entire system by its fine tonic effect. Book on Rheumatism and any medical advice free.

Adams Tp. Sunday Schools Met at Bakersville

BAKERSVILLE, Sept. 30.—John Leech and wife and Jacob Bahner and wife visited with Mrs. F. W. Powell and daughter Nellie near

Fresno last Thursday. Daniel Zimmerman and family visited with relatives in the Rogersville vicinity Saturday and Sabbath.

Prof. S. C. Leech and family of Canal Lewisville visited here with their parents Saturday and Sabbath.

The Adams township Sunday School convention was held in the Presbyterian church last Sabbath, the forannoon session was devoted to a discussion of the temperance question. A very interesting essay on "Local Option" was read by Jess Kinner, the teacher of the primary school at this place.

The afternoon session was devoted to a general discussion of Sunday school work and was participated in by Mr. Peter Hahn, of Fiat, Mr. Morris Hawk, Mr. Samuel Hawk, Mr. John Leech, Mr. Kinner and Prof. Leech and Ridgeway.

The evening services consisted of a lecture by the Rev. Roberts, pastor of the M. E. church of Newcomerstown he chose for his subject "The Pitcher" and explained how it was made and for what it might be used and what it might contain. His closing remarks were very earnest in behalf of the great temperance battle that is now being waged in Coshocton county.

Music was furnished by the Hayden Quartette of Newcomerstown.

OHIO NEWS

Opens Campaign at Cleveland.

Cleveland, O., Sept. 30.—Governor Charles H. Hughes of New York was banqueted for 15 minutes by the local chapter of the Delta Epsilon at the University club, was rushed to a tent in the East End, where he addressed a big crowd, and left over the Baltimore & Ohio railway for Parkersburg, W. Va. At the Republican meeting, at which Governor Hughes was the main speaker, former Congressman W. S. Kerr also spoke. It was the opening of the local Republican campaign. Governor Hughes spoke chiefly of Democratic promises in comparison to Republican acts. He considered Mr. Bryan to be a man of excellent personal qualities, but unfit for the presidency.

Cincinnati Concern Assigns.

Cincinnati, O., Sept. 30.—Practical failure of the corn crop and slow collections are declared to be the cause for the assignment of the Millcreek Valley Starch company. The company is capitalized at \$150,000. It has been running for four years and, until within the past few months, profitably. The president, Charles W. Schmidt, estimates the assets at \$100,000, which he regards as conservative. The liabilities are given as \$90,000. John H. Geyer was named as assignee. Permission of the court was given that the assignee continue the business to enable the company to pay out without suspending.

Girl's Assailant Captured.

New Straitsville, O., Sept. 30.—Grant Mixon, the colored boy, accused of assault on Miss Lulu May Ramsey Sunday afternoon, was captured by the police of New Straitsville as he was stepping from a freight train, having eluded the posse of enraged villagers led by Charles Ramsey, his victim's father, which had surrounded him in a deep woods on the edge of the village. Mixon was held until the arrival of City Marshal Lon Spencer of New Straitsville, who took him in a surrey by a roundabout way to the county jail at New Lexington, where he is now under heavy guard.

Find Stolen Rig.

Galion, O., Sept. 30.—It is believed that a "fence" for stolen horses has been discovered in a dense forest, but two miles east of this city. A number of horses have been stolen in this locality, and two weeks ago the horse and buggy of Eugene Garrett were stolen from the street here. Both were discovered hidden in the woods. Jefferino De Sota a foreign wanderer, has been arrested charged with the crime.

Says Sugar Beets Pay.

Bellefontaine, O., Sept. 30.—T. A. Johnson, field manager of the Continental Beet Sugar company, sent a report to the company that sugar beets raised in this vicinity range to 17 per cent of sugar. Farmers raised a beet crop as an experiment, and the crop is worth many thousands of dollars.

ITCHING ECZEMA FIFTY-FIVE YEARS

Suffered Torments from Birth — Boils Formed as Big as Walnuts — In Frightful Condition and Could Hardly Work — Tried All Kinds of Remedies to No Avail — At Last

WHOLLY CURED IN 8 MONTHS BY CUTICURA

"I had an itching, tormenting eczema ever since I came into the world, and I am now a man fifty-five years old. I tried all kinds of medicines I heard of, but found no relief. I was truly in a frightful condition. At last my blood was so bad that I broke out all over with red and white boils, which kept growing until they were as big as walnuts, causing great pain and misery. I thought they would take the skin off my whole body, but I kept from scratching as well as I could. I was so run down that I could hardly do my work. Mr. Nelson R. Burnett recommended the use of Cuticura Remedies, telling me he was confident they would benefit me, and in time cure me. I used the Cuticura Soap, Ointment, Resolvent, and Pills for about eight months, and I can truthfully say I am cured. I cordially recommend Cuticura Remedies to all who are afflicted the same as I was, believing that if they will use them according to directions, they will find them all they are represented to be. Any one doubting the truth of the above can write to Mr. Burnett, who will cheerfully vouch for my statements.

"Hale Bordwell, R. F. D. 3, Cedar Corners, Tipton, Ia., Aug. 17, 1907."

"I cheerfully endorse the above testimonial. It is the truth. I know Mr. Bordwell and know the condition he was in. He never tires of praising the Cuticura Remedies."

"Nelson R. Burnett, Tipton, Ia."

Gentle anointings with Cuticura, the great Skin Cure, preceded by warm baths with Cuticura Soap, followed in the severer forms, with mild doses of Cuticura Resolvent Pills, afford instant relief, permit rest and sleep, and point to a speedy cure of torturing, disgusting, itching, burning, and scaly humors, eczemas, rashes, and inflammations, from infancy to age.

Cuticura Soap (25c) to Cleanse the Skin, Cuticura Ointment (50c) to Heal the Skin, and Cuticura Resolvent Pills (50c) to Purify the Blood. Sold throughout the world. Porter Drug & Chem. Corp., Sole Props., Boston, Mass.

We Guarantee Parisian Sage to Cure Dandruff, Stop Falling Hair or Itching of the Scalp, in Two Weeks, or Money Back—Giroux Mfg. Co., Sole American Makers of Parisian Sage

The above is an offer we are most proud to make. It is an offer that no man or woman need be ashamed to accept. Parisian Sage is the quickest, acting and most rejuvenating hair restorer in the world.

Its magical qualities have made it famous wherever it has been introduced.

It is the only hair restorer sold with an absolute guarantee to cure dandruff, stop falling hair or itching of the scalp.

It cures dandruff by killing the germs, and it kills them so promptly that the most skeptical give it their warmest praise.

But Parisian Sage is more than a cure for dandruff—it will make hair grow on any head where the hair bulb is not altogether dead.

And we want every reader of The Age to know that Parisian Sage is the most delightful hair dressing in the world. It is so pleasant to use, and its effect is so invigorating and refreshing, that it pleases everybody.

And to the ladies we wish to emphasize the fact that Parisian Sage is the only hair tonic in the world guaranteed to make the hair grow luxuriant, soft and beautiful.

The girl with the Auburn hair is on the outside package of every bottle of Parisian Sage. C. E. Anderson sells it for 50 cents a large bottle, or you can get it direct, all express charges prepaid, from Giroux Mfg. Co. Buffalo, N. Y.

OAK GROVE FARMERS ARE PROSPEROUS

OAK GROVE, Sept. 30.—During the last year the writer has been impressed by the number of farm buildings that have been built through this section. On the road leading from Fresno to Oak Grove the following persons have built new residences within the last year: Samuel Wyler, Michael Leavengood, H. A. Caton, G. O. Hains, Daniel Gribble, John Balch, R. A. Todd and C. G. Starker. Along the same stretch of road the following persons have built new bank barns within the year: S. Wyler, M. Leavengood, Ashbury No man, Lewis McFarland, Geo. Wyler and Henry Huprick. Two new sheep barns have also been built. Within the last five years five other large bank barns have been built in the territory. This makes a total of eight new residences and thirteen new barns along a stretch of road probably five miles in length. These buildings represent an expenditure of at least \$20,000 and no doubt much more; three-fourths of which has been spent during the last year. These facts must lead us to two conclusions. First, that farmers are making great efforts to improve their farms and second, that the farmer is one of the last persons to be affected by hard times.

M'LAURIN SAYS HE NEEDED THE MONEY

Former Senator Explains Archbold Correspondence.

New York, Sept. 30.—John Lowndes McLaurin, former United States senator from South Carolina, is in town, and has given out a signed statement regarding the correspondence between himself and John D. Archbold, vice president of the Standard Oil company, as recently made public by W. R. Hearst.

He says he has no apologies to make for the correspondence, as at the time the letters were written he was engaged in a bitter struggle in which not only his own political future, but the economic and political principles for which he stood, namely, the "emancipation of the south from the ignorant prejudice of Bourbonism and the 'bloody shirt,'" were at stake, and he saw no impropriety of enlisting the assistance of the "most progressively administered and the most intelligently officered corporation that human intelligence has yet produced."

In further extension of his action in soliciting campaign funds, he points to the fact that churches and libraries accept Mr. Carnegie's "trust-produced and tariff-protected" money.

Judge Brewer Is Optimistic

Washington, Sept. 30.—That Justice David J. Brewer of the United States supreme court does not fully share the rather gloomy views held by some of the world-famed authorities on tuberculosis was reflected in his address before the international tuberculosis congress. Justice Brewer's topic was "The Legitimate Exercise of Police Power for the Protection of Health," and he had been preceded on the platform by Professor Irving Fisher of Yale, who declared that 5,000,000 people now living in the United States are doomed to fill consumptive graves unless something is done to prevent it, and that the 138,000 deaths in this country annually from tuberculosis costs in cash over a billion dollars a year.

Carter Disinherits Son

Chicago, Sept. 30.—The will of the late Leslie Carter, one time millionaire, was filed for probate, disposing of a fortune which has dwindled to \$75,000. The estate is divided between a sister and a brother, thus disinheriting a son. Of the son the will says: "I leave nothing to my son, Leslie Dudley Carter, for the reason that he has left the home which I maintained for him without cause or justification. This, I believe, can result only to his personal injury, if not his ruin."

Give the Clows a Square Deal!

The following letter from James B. Clow & Sons, by W. E. Clow, Pres., explains itself:

Chicago, Sept. 25, 1908.

Mr. C. B. McCoy, Chairman Joint Committee Manufacturers and Business Men's Association, Coshocton, O.

Dear Sir:

Through a letter from Hon. Russell L. Donley I learned that the question of Local Option was likely to be brought before the people of Coshocton this year.

Coshocton as an agricultural community gained in about ninety years a population of approximately 3,700. In ten years, as a manufacturing center, its population increased over 8,000. When we entered into a contract to build our works it was on the basis of certain labor conditions. And in all fairness to us we suggest that no change be made until after our works have been built and in operation. Then, if the law under which the proposed action would be taken proves constitutional, and the people desire local option, by all means have the election.

Active building operations on our works will be commenced within three weeks.

State of Wyoming, October 9, 1908 Will Open For Entry At Bosler, Wyoming, 15,000 Acres Irrigated Land Under Government Carey Act Law.

Terms and Title.

Under the Carey Act, a person entering this land receives his title from the United States Government through the state of Wyoming. You can take 10, 80, 120 or 160 acres. The law requires that you must first make application for water right before you can make entry. At the time of filing you pay the state of Wyoming 25 cents per acre, and pay \$5.00 per acre on your perpetual water right, which comes from the first district filings and first storage reservoir water rights on the Big and Little Laramie rivers; you pay an additional payment of \$5 per acre on or before May 1st, 1909, the balance you pay in ten equal annual installments of \$2.50 per acre which is less than rent in older states. You then own the land and perpetual water right and a proportionate interest in the ditches, reservoir, canals and irrigation systems. You pay 25 cents per acre on receiving your patent.

Free Trip To Opening

This company will bear all expenses from Chicago or Omaha and return, including railroad fare, sleeping and dining car service, and accommodations on the grounds. FOR ALL THOSE WHO HAVE SIGNED APPLICATION AND MADE THEIR FIRST PAYMENT FOR WATER RIGHTS TO THIS COMPANY BEFORE TUESDAY, OCTOBER 6th, 1908, and provided applicant accompanies us on one of our special trains which leave Chicago, Tuesday at 10 p. m. Oct. 6th, 1908, over Chicago and North Western R. R., or from Omaha over U. P. R. R. which leaves Omaha Wednesday, Oct. 7th, 1908, at noon.

Free Town Lots

Two town lots in town of Cooper Lake will be given to applicants who have signed application and made first payment before Oct. 6, 1908. Train will leave Canton, O., 10:08 a. m., Tuesday Oct. 6th to meet special trains at Chicago to opening (via North Western R. R.) Tuesday, Oct. 6th, 10 p. m. Omaha (via U. P. R. R.) Wednesday, Oct. 7th, 12 m. Sleeping and dining car accommodations.

Crops.

In the Big Laramie River Valley the crops include every variety produced in the humid areas, besides those which can only be cultivated by means of irrigation.

Wheat is grown with marvelous results in many varieties, the average yield being 50 to 70 bushels per acre.

Oats and Flax are the best crops to grow the first year after breaking the sod land; oats yield from 80 to 135 bushels per acre.

Barley, in the Big Laramie Valley, is famous for yield and quality; the average yield per acre is 60 to 140 bushels per acre.

Sugar Beets, one of the great money-making crops of the west, yields from 20 to 25 tons per acre.

Buckwheat produces well and matures quickly.

Alfalfa is one of the most profitable crops, its large yield and number of cuttings making it invaluable. It cuts from 3 to 6 tons per acre annually.

Potatoes form one of the most important and valuable farm crops and yield from 300 to 600 bushels per acre. A failure has never been known.

Field Peas are highly profitable because of the market value of the crop and the great fertilizing properties. There is a grand opportunity for making money in the raising of this product.

Native Hay cuts 2 to 3 tons per acre and sells for \$8 to \$12 per ton. Turnips grow more pounds of food to the acre than any other crop and are rapidly becoming invaluable as food for stock.

All kinds of vegetables and many kinds of fruit grow luxuriously and yield profitable returns.

Average Yield Per Acre in States of Illinois, Ohio and Wyoming.

	Illinois	Ohio	Wyoming
Wheat	17 bushels	18 bushels	50 to 70 bushels
Oats	29 bushels	32 bushels	70 to 135 bushels
Barley	30 bushels	36 bushels	60 to 140 bushels
Potatoes	72 bushels	107 bushels	300 to 600 bushels

Distribution of Lands.

The State Land Board knowing there will be a large number of applications for these lands and water rights, will adopt some orderly method by which selection of lands will be regulated in a manner just, fair and impartial to all. The distribution of lands will be conducted by the Land Commissioner of Wyoming.

Law requires you make application for water right before you make entry for land. Make your application for land if you want land.

CHEAP LABOR MAKES

The pessimist still complains about
the high price in food products and
tries to make it appear that the ad-
vance in wages in the last ten years
has not been commensurate with the
increase in the cost of living. There
has been only one careful investiga-
tion of this subject made, and that
has been by the Bureau of Labor,
which is composed of careful and con-
servative investigators who have no
partisan bias. In fact, they have
been making their investigations year
by year ever since the Bureau was
created under the administration
of Grover Cleveland, and their fig-
ures have been made public in the
labor bulletins every year, so while
they are applicable in this discus-
sion they were in no way intended
for use in a political campaign, and
they would not be except to show
the mistakes of those who assume
that the increase in the cost of liv-
ing has been greater than the aver-
age increase in the earnings of the
people.

Take the figures any way one
pleases to look at them, they show
the error of this assumption. Com-
paring the last year of 1905 with
that of 1894, there was an increase
of 42 per cent. in the employees
who had work and wages; there
was an increase of 21.5 per cent. in
the average earnings per hour;
there was an increase of 16.7 per
cent. in the average weekly earn-
ings per employee, and there was an
average increase of the weekly earn-
ings of all employees. On the other
hand there was an increase of 12.7
per cent. in the retail prices of
food.

All the percentages on wages are
greater than the percentages of in-
crease in the cost of food, and only
the reckless assertion of pessimists
stand against the careful investiga-
tion of a large number of trained ex-
perts who have no other purpose
than to carry on the work for which
the Bureau of Labor was created. It
is all very well to complain of high
prices and to demand cheap food and
cheap clothing. But we had one era
of cheapness in this generation and
the cheapest commodity in that time
was labor. President Harrison said
a "cheap coat makes a cheap man,"
and the conditions that prevailed un-
der the last Democratic administra-
tion came pretty near demonstrating
that as an absolute rule. Labor was
then so cheap that men could not
exchange it for enough to give them
a living. It was carnival of soup and
rags. Today labor is the dearest prod-
uct in the market. It is just as
well to be sober in judgment of these
things when we are going to the
polls to determine the policy of the
government for the next four years.
Do we want cheap labor or high
priced labor? That is the question.

Here is a puzzle: Richard Olney is
against Roosevelt's policies, yet he
supports Bryan, who says that Roose-
velt's policies are his. Which reminds
us of the difference 'twixt tweedledum
and tweedledee.

Some left handed supporters of Bryan
assert that, with a Republican senate
to check him, the Nebraskan could
do no harm as president. Just think
what would happen with a Bryan sec-
retary of the treasury and a Bryan
attorney general.

"Boss" Croker is warmly in favor of
Bryan's election. Mr. Bryan once de-
clared, "Great is Tammany, and Croker
is its prophet!"

"Shall the people rule?" is not a new
issue. It was answered in the affirma-
tive in this country as far back as
1776.

Mr. Bryan refuses to discuss Mr.
Taft's experience with the black bass.
Mr. Bryan is fighting very shy of the
colored question this year.

If there was a political pure food

TAFT AS A SPEAKER

His Talks to the People Winning
Many Votes.

DOESN'T POSE AS AN ORATOR.

Word Pictures Not Needed to State
Facts Plainly—Republican Can-
didate's Clearness and Sincerity Carry
Conviction.

From being decidedly apprehensive
as to the outcome of Judge Taft's
speaking tours Republican leaders are
now convinced that one of the wisest
moves of the campaign was the de-
cision to let the Republican candidate
visit as many sections of the country
as possible between now and election
day and talk to as many voters as the
time will permit. When speaking tours
for Taft were first discussed the oppo-
nents of the plan based their opposi-
tion on the fact that as an orator Taft
cannot be compared to Bryan. They
argued that Taft, who makes no pre-
tense to oratory, would be placed at a
disadvantage appearing on the stump
against the gifted Nebraskan. But
Judge Taft himself solved the problem
and cleared the whole situation with
one sentence in his recent speech at
Sandusky, O.

"I cannot dwell in the cerulean blue,
but have to deal with facts," he de-
clared. It is this dealing with facts in
a clear, dispassionate manner that has
made William Howard Taft what he
is, that will cause him to gain strength
every time he appears in public. Taft's
best friends cannot claim for him that
he is an orator. But he can tell the
truth and does tell it. He will not have
to paint beautiful word pictures of
what should be done. He will not have
to plead with silvery eloquence for the
alleged downtrodden nor call on "the
masses" to rise up and save the coun-
try from the ruin which Bryan has
been predicting and finding various
panaceas for during the past twelve
years.

What Taft has to do is to state
cold, clear cut facts, to tell the truth
about himself, to give to his auditors
a clear and unmistakable idea of what
Taft the man is and what he stands
for. And this he can do, and do well.
By nature he is frank and open. It
would be difficult for him to dissemble
if he wished to do so.

Already Taft has begun making seri-
ous impressions on his audiences. Bryan
never fails to tickle his audiences. In
most instances he arouses enthusi-
asm, but it is an enthusiasm which
rarely lasts. Those who listen and
applaud go away and forget. With
the Taft audiences it is different. By
the clearness of his exposition and the
absolute sincerity of his manner he
carries conviction. His auditors are
soon impressed by two things—Taft's
ability and Taft's sincerity.

"That man means what he says," is
a comment frequently heard after Taft
has spoken. Another Taft character-
istic that is winning many friends for
the Republican candidate among those
who knew nothing of him before they
saw and heard him is his great cour-
age. He says what he thinks, and
says it in such a way that it remains
fixed in the minds of those who hear
him. At Athens, O., he was address-
ing 400 union coal miners. He told
them about having issued injunctions.
"I issued them," he said, "because
the rights of the plaintiffs demanded
it. When I am on the bench I enforce
the law. And I have no apology to
make."

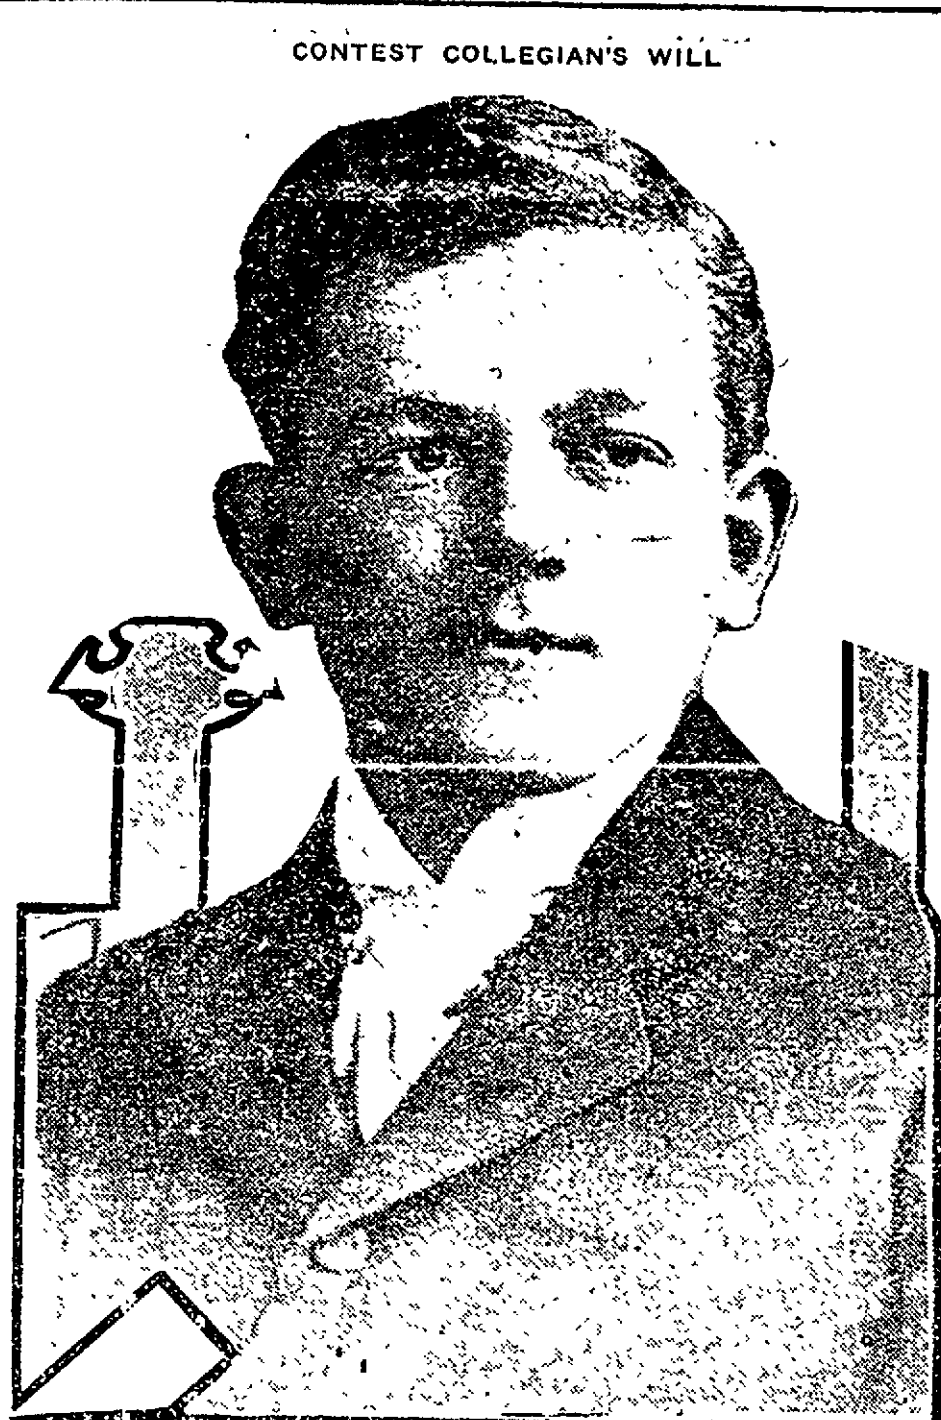

For a minute there was absolute si-
lence, dramatic in its intensity. Then
the 400 miners broke not merely into
applause, but into enthusiastic cheers.
After the meeting they were heard ex-
pressing their views.
"That man is on the level," said one.
"He doesn't hand out any 'con' talk.
He knows where he stands and is not
afraid to come straight out with a
thing. He ain't the orator Bryan is,
but he says things that Bryan wouldn't
dare say."

Unlike many of Bryan's utterances,
Taft's utterances will bear inspection.
He will make no declaration that is
open to doubt. "I have to deal with
facts," he said. In some of his
speeches Bryan, intoxicated with the
sound of his own words, frequently
makes statements not entirely trust-
worthy. Taft has been too long on the
bench, too long in high government po-
sitions, where his utterances carried
weight, to permit of his making care-
less statements. Furthermore, Taft
possesses to a marked degree the abili-
ty to discuss the most intricate sub-
jects in the simplest language. He
proved this most conclusively at San-
dusky when he made perfectly plain to
his audience the development of anti-
trust legislation and the powers and
limitations of the federal government.
Everybody knew exactly what he was
talking about and understood it clear-
ly. Yet there were few in the audience
who realized that he was discussing
abstruse legal problems without resort-
ing to bewildering legal phraseology.

As far as personal magnetism goes,
Taft and Bryan are nearly equal. But
where Bryan's personality is one that
creates interest and enthusiasm Taft's
is one that inspires affection and trust-
fulness. "That man has a fine face;
I would trust him anywhere," said a
West Virginia woman who with a
large party came over the mountains
to hear Taft speak at Hot Springs.
Those who meet him feel that he is
not only sincere, but that he possesses
the ability and courage to handle safely
the many problems that confront a
president. It is the knowledge of all
this that makes the Taft managers
glad that he is to go out and meet the
people.

Itching, bleeding, protruding or
blind piles yield to Doan's Ointment.
Chronic cases soon relieved, finally
cured. Druggists all sell it.

The sheath gown had proved as
effective as one of Colonel Bryan's pol-
itics.

Walter F. Baker, the Harvard graduate and well known clubman, who
died of poison last year near Bogota, N. J., left an estate estimated at
\$500,000. His will was contested and the matter has now been settled
by an agreement among the heirs, by which the original will is affirmed.
He left one third of his estate to Natalie Hard, the infant daughter of
Frank H. and Helen B. Hard, of Bogota. The child died last spring and
her parents inherited her share.

BRYAN COULD HARM.

Danger of Placing Nebraskan In
White House.

EVEN WITH SENATE OPPOSED.

Administration and Enforcement of
Laws Would Be in His Hands—The
Treasury Would Be Under His
Thumb—National Banks Would Be
at His Mercy.

Nobody with brains enough to get in
out of a blizzard can have patience
with the argument so complacently put
forth by some of the Bryanites who
want to humbug others into believing
that they don't believe themselves
that Bryan can do no harm should he
be elected. The usual way of putting
it is that there will be a Republican
senate and probably a Republican
house and that Bryan's hands will be
tied even if his tongue continues to
wag—certainly a poor reason for elect-
ing a president even were it true.

But it is not true. A grammar school
boy who has studied the constitution
of the United States knows that. Of
course Bryan as president in face of a
sane congress could not pass laws. But
the whole administration of national
laws, including their enforcement,
which is at least as important as pass-
ing them, would be in his hands. He
would have the treasury under his
thumb; the national banks would be
at the mercy of a comptroller of the
currency appointed by him; the foreign
policy of the government would be di-
rected by him, and ambassadors, min-
isters and consuls would be named by
him. The army and navy would be un-
der his command. Collectors, postmas-
ters and other officials of the civil serv-
ice would be nominated by him. While
he could not establish "a tariff for re-
venue only," he could make things much
smoother and easier for the class that
come back from European trips loaded
with all sorts of luxuries purchased
abroad to the detriment of American
labor.

Then he could smash any bank that
might offend him by not going into his
compulsory guarantee scheme, just as
his campaign treasurer, Governor Has-
kell, smashed the International Bank
of Cologne, Okla., to make a demon-
stration of the guarantee law for the
Democratic Denver convention.

Oh, yes, Bryan could do harm—so
much harm that it might take the coun-
try many long years to recover from
the damage done by four years of
Bryan in the White House.
But Bryan will do no harm because
he will not have the opportunity, be-
cause the American people are going to
elect as their president William H.
Taft, the candidate of the Republican
party, the impartial judge, the con-
structive statesman, the man of whom
McKinley said, "He is the broadest
and most unselfishly brave man I know
and will carry the constitution of the
United States in his very blood."
Taft's election will be an assurance
that the voters of the United States
are determined to have in the White House
one whose presence there will be in
itself a pledge of good government,
of efficient and equitable administration
of the laws, of intellectual and educa-
tional advancement and of progress
and prosperity in the material affairs
of the republic.

CONTEST COLLEGIAN'S WILL

A SURPRISED MINISTER

Hyomei Cured Bronchial Catarrh Af-
ter He Had Given Up In Despair

"For many years I have been a suf-
ferer from bronchial catarrh, and had
despaired of anything like cure.
Judge of my pleasant surprise when I
first used Hyomei, which brought
complete relief. Hyomei has been a
valuable godsend. Rev. Charles
Hartley, Sardina, Ohio.

There are many readers of The
Age who are suffering with catarrh
either nasal or bronchial. Many of
these despair of ever being cured.
They have soaked their stomachs with
nourishment until they are disgusted
with all medicines and are now travel-
ing their miserable way, allowing the
devilish germs of catarrh to sap them
of their health, energy and vitality.

But let us reason together. C. E.
Anderson the druggist, has a guaran-
teed remedy for catarrh, colds, coughs,
bronchitis, croup, and all inflamma-
tory diseases of the nose, throat and
bronchial tubes. The name of this
remarkable remedy is Hyomei, and if
it doesn't cure you he will give you
your money back.

Hyomei (pronounced High-o-mee) is
medicated air; you just breathe it
through the inhaler over the inflamed
and germ ridden membrane, and its
soothing antiseptic properties will al-
lay the inflammation, destroy the germs
and restore the entire respiratory
tract to its normal conditions.

A complete Hyomei outfit, includ-
ing a hard rubber inhaler, costs but
\$1.00, and an extra bottle of Hyomei,
if afterwards needed, costs but 50
cents. See C. E. Anderson about it
today.

It is a paradox in politics, but it is
nevertheless true, that the party in
power is not on the defensive in this
campaign. The Republican record and
candidates need no defense. The Dem-
ocrats are the apologists this year.

Mrs. Mamie Clark has a paper on "Our Mints and U. S. Treasury." Mrs. John Hanlon, a paper on the ever interesting topic of "Universities and Colleges." A discussion on "How shall we raise the standard of home-making among

American girls?" by Mrs. T. G. Brown and Mrs. Macra C. Rue is postponed till later in the year and instead, Mrs. R. C. Snyder has her paper on "The Use and Abuse of Our Natural Resources."

Ashbaker-Siegrist

Wedding at Wills Creek

The wedding of Miss Anna Ashbaker and Mr. George Siegrist took place Wednesday morning at the church of the Blessed Lourds in Wills Creek, the impressive nuptial mass being said by the Rev. Fr. Dunne. Miss Helen Scherrer was bride's maid and Mr. Carl Siegrist, a nephew of the groom, was best man. The bride is the charming daughter of Mr. and Mrs. Joseph Ashbaker of Wills Creek, and Mr. Siegrist is interested in the Siegrist garage of this city. Both are widely known and popular among their many friends. A big wedding breakfast at the bride's parents' home was an event of the day. After Oct. 6 Mr. and Mrs. Siegrist will be at home at their cozy new home on Ninth street.

Supper At

Have Mystified

Their Friends

Quite a bit of mystery seems to center about the marriage of Miss Dess'e Graham and Mrs. Clarence Kirk, who were joined in holy wedlock at noon, Wednesday. That is about the extent of the knowledge that can be gleaned on the subject, although their friends have been very zealous in their endeavors. Just as No. 6 pulled in, the happy pair appeared at the station, each carrying a suit case and each apparently oblivious of the presence of the other. They boarded the train, but as yet no one is able to state whether they are going on their honeymoon. It is rumored they expect to be married out of the county.

An Interesting Experiment

It will enable you to determine the value of P. & G. Naphtha Soap. Try it!

Make a strong suds of P. & G. Naphtha Soap and cold or lukewarm water.

Put into this all the dirty dish-cloths you have. Let them soak for an hour. If any dirt spots remain, rub them lightly with the soap. Remove the cloths. Rinse them in clear water. Hang them up to dry.

Look at them an hour later. They are as clean as when new—free from grease and without odor of any kind.

The point of this little experiment is this: If P. & G. Naphtha Soap will clean dirty dish-cloths quickly, easily and thoroughly, how much more quickly and easily will it clean bed-linen, table-cloths, pillow-cases, skirts, shirt waists and articles of a similar nature which are not, and never were, one-tenth as dirty as the dish-cloths?

5 cents a cake, worth more.

The Only Food

The only wheat food that is perfectly cooked—a pretty strong claim, is it not?

Steam-cooked for six hours—then thoroughly cured—then baked at 400 degrees.

It requires 96 hours to turn wheat into Mapl-Flake. Yet flaked food can be made in from 18 to 20 hours. Let us tell you what a difference that makes in the food.

Wheat is composed largely of starch.

Starch, to be digestible, must be made soluble. The particles must be separated, so the digestive juices can get to them.

You cannot digest raw starch.

The only way to break up the granules of starch is to apply a fierce heat, and for long. That is why wheat is flaked—to get it so thin that the heat goes through.

In baking bread, the inside of the loaf never gets heat enough. That is why bread doesn't all digest. That is why more will digest when it's toasted.

The more starch you break up by heat, the more food you will get. But no form of wheat food—save Mapl-Flake—is so cooked that all of the wheat becomes digestible.

Mapl-Flake alone is all food.

That is why Mapl-Flake is the most economical food. It is all nourishment.

But that isn't all. When only half of a food digests the other half ferments and breeds germs. It always causes, in some degree, symptoms of indigestion. Dyspeptic symptoms are usually due to the failure of starch to digest.

Mapl-Flake is cooked with pure maple syrup. That's for the children, mainly—to make them like the food that is best for them.

Torturing Animals to Assist Science

Is a Cruel Method to Follow but it Has Saved Many Human Lives.

Prof. Pawlow, of Russia, was engaged for many years in experimental work, trying to learn the workings of digestion, especially the digestive glands.

He, with able assistants, operated upon dogs, cats, guinea pigs and other animals.

His method was exceedingly painful, but he gave to science a work which won the Nobel prize and made for him undying fame.

Science penetrated the secrets of nature. Prof. Pawlow saw animals digest food. He analyzed juices from every part of the digestive canal and stomach under all conditions of digestion. He spent years on ceaseless study and the howling and dying beasts but he won, and science today looks upon him as a great man.

Science, a great right do a little wrong. Sakspeare said, and Prof. Pawlow, obeyed his little saying.

Stuart's Dyspepsia Tablets are prepared by the most scientific process. They are produced by modern appliances, and meet the demand of 20th century chemistry.

They give man the means to correct his infirmities of stomach and digestive organs.

They enrich the blood give nature the juices and fluids she lacks, stop the formations of noxious gases, and the fermentation of food. They neutralize powerful acids and alkalies which irritate and decay the stomach. They prevent and relieve heart and intestinal trouble and soothe the nerves.

They should be used after every meal whether one has dyspepsia and stomach trouble or the stomach be naturally healthy. By their use one may eat at all hours and at any time and they help the system digest or throw off such food. They are thoroughly meritorious as their tremendous sale and popularity attest.

Every drug store has them for sale, price 50 cents per package. If you would like to test their merits, send us your name and address and we will send you a trial package by mail without cost. Address P. A. Stuart Co., 150 Stuart Bldg., Mar. shall, Michigan.

BRYAN REPLIES TO THE PRESIDENT

(Associated Press Telegram)

Rock Island, Ill., Sept. 30.—In a letter addressed to President Roosevelt, William J. Bryan, replying to that of Mr. Roosevelt written Sunday, says:

"I have lived in vain if your accusations lost me a single friend." He then points to his record and declares that it is a sufficient answer to the insinuations of the chief executive that he is in sympathy with or controlled by the trusts.

Taking up the president's assertion that certain trust magnates, fearing prosecution under Mr. Taft, will support the Democratic candidate, Mr. Bryan charges that the president worded his statement in such a way as to claim the support of all the trust magnates, and yet put it on the ground that they are supporting your party for patriotic reasons, rather than for the promotion of a selfish interest.

Such an argument, he contends, is ingenious, but not sound. In proof of the fact that he would not be controlled by the trusts, Mr. Bryan says that, if elected, he will enforce the anti-trust laws, "not spasmodically and intermittently, but persistently and consistently."

Mr. Bryan, in dealing with the Democratic campaign fund of 1896 as compared with the Republican campaign fund of 1904, charges that the president pays "more attention to the more than to the less," and asserts that in 1904 the Republicans used in one state alone a fund almost as large as the entire sum the Democratic party had in its control. The letter concludes with the notice to the president that an opportunity will be afforded him "to misrepresent the motives of those who give to our campaign fund and to arouse all the suspicion you can."

Reverting to the charges against Governor Haskell, Mr. Bryan says that the president, in response to his request, did not deign to suggest a tribunal which could determine those charges but instead proceeded to pass judgment upon him, and he informs the president that the occupant of that high office can not deny the humblest citizen the right to protect his reputation and vindicate his name in the courts.

Bryan Has Busy Day.

Rock Island, Ill., Sept. 30.—Having traveled all day through Iowa, William J. Bryan arrived here and spoke to a big assemblage at the baseball park. Although the route taken through town was not generally known, because of an upset schedule, large crowds gathered at several points and the Democratic candidate was called on for a speech. He made 10-minute talks at Carroll, Boone, De Witt and Clinton, and gave encouragement to the Democrats in his audience by telling them he had good reports regarding the political situation in their state. The trusts, the tariff and public utility campaign contributions were briefly discussed, and both Mr. Taft and President Roosevelt were scored in connection with their views on those subjects. On the way from Sioux City to Davenport, he wrote his reply to President Roosevelt's letter of Sunday and gave it out for publication.

SYSTEM FAILS

Lord Rosslyn Loses In Attempt to Break Roulette Bank.

London, Sept. 30.—The unique gambling contest between Sir Maxim and Lord Rosslyn came to an end, and shows defeat for the system advanced by the latter.

Lord Rosslyn claimed that by his system of playing it was possible to win at roulette against the Monte Carlo bank. Sir Maxim said this was impossible, and in order to settle the controversy the two men began playing roulette in a Piccadilly club ten days ago. Sir Maxim continued the game in the same way it is played at Monte Carlo. Lord Rosslyn started to play with \$50,000 in "bank" money, and the bank had an equal amount.

Lord Rosslyn's system has been proved to be utterly fallacious. A one period of the contest he was about \$15,000 to the good, but for the past three days the bank has been a steady winner and his 100,000's dummy money became exhausted.

Confederate Monument Unveiled.

Beverly, W. Va., Sept. 30.—The monument erected by Beverly Chapter No. 267 of the United Daughters of the Confederacy, in memory of the 77 Confederate soldiers killed at the battle of Rich Mountain and other engagements in this section, was unveiled today at the annual reunion of the West Virginia division of the United Confederate Veterans. This venerable town, past 120 years old, has assumed a gala attire, nearly every building is decorated properly with Confederate flags and bunting. Old Glory occupying as prominent a place as the Confederate battleflags.

Jerome to Investigate.

New York, Sept. 30.—District Attorney Jerome announced that he would investigate the facts connected with the sale to a New York paper of an article on the issues of the campaign by the late ex-President Cleveland. According to the New York Times, which originally published the article, F. S. Pastore, proprietor of Mr. Cleveland's letter, at first vouches for the genuineness of the article, but later withdraws the voucher. The Times has now submitted the matter to the district attorney. Mr. Jerome said: "The question of the authenticity of this article seems to me not only important from the standpoint of the criminal law, but to have a large public importance. If the article is a forgery, the person responsible for it and for its sale, if the sale was consummated knowing it to be a forgery, should be severely punished, for wrongdoing of this character, in the midst of a bitterly fought campaign, might have very serious consequences."

Smith-Dietrich Nuptials.

Farmington, Conn., Sept. 30.—The marriage of Herbert Knox Smith, son-in-law of corporations, and Miss Gertrude Dietrich, daughter of former Senator Charles H. Dietrich of Nebraska, was solemnized in the Congregational church, the pastor of the church, Rev. Quincy Blakey, officiating. The bride was given away by her father.

The Knock-out Blow.

The blow which knocked out Corbett as a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach is utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Doctor Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

Pyrography--The Art of Wood-Burning

Since time immemorial, man has been dominated by a natural tendency to beautify his surroundings, be it in his home or in his garden, the evidence of his skill in this respect is every where evident. Out of this condition and because of this dominant tendency, pyrography or fire writing has developed and progressed to its present stage. The work is simple but the art is beautiful and very fascinating. The Fountain has a section devoted exclusively to this work. Here you may find outfits, platinum points, stains, gas baths, in fact, all accessories and many artistic ideas to burn.

Outfits \$1.00 and \$1.45.
Separate Points 75c, \$1.00 and \$1.25.
Plaques, boxes, etc., to burn 5c to \$1.50.

Rheumatism

Do you want to get rid of it? If so, take Dr. Miles Nerve modified as directed in pamphlet around bottle. In addition to the direct curative properties it has a soothing effect upon the nervous system by which the rheumatic pains are controlled, and rest and sleep assured. It has made many cures of this painful disease, some of them after years of suffering. If it will cure others why not you. If your case is complicated, write us for advice, it costs you nothing and may save you prolonged suffering.

"I was so crippled that I could scarcely walk. After having my shoes on for an hour or two I could manage to walk by suffering the pain. Then I began to have pains all through my system. My doctor told me I had an acute attack of miliumary rheumatism. I read about Dr. Miles' Nerve, bought a bottle and I commenced to get better from the start and for the past six months have scarcely any pain, and am able to walk as well as ever."
